**RESPONSE TO RESTRICTION REQUIREMENT**

Sir:

In response to the Office Action dated August 5, 2005, applicant provisionally elects the claims of Group II (claim nos. 11-19), with traverse. While the inventions of Group I and Group II may be distinct, the reasons set forth by the Examiner is believed to be in error. For example, the Examiner states that "Invention II has separate utility such as a message having an identifier of a page". Although applicant believes the invention may have more than one utility, the details of a page should not make such utility separate. Further, applicant believes that simultaneous examination will not present an undue burden.
